

ADEQ  
Vehicle Emissions Section  
Guidance Statement

Purpose: To assign alternative emissions standards for specific reconstructed vehicles not addressed in Table 2. (Emissions Standards - Annual Tests) of A.C.C R18-2-1006.

Effective Date: July 21, 2003

Review Date: July 2007

Applicability: Applies to all reconstructed vehicles not addressed in Table 2. (Emissions Standards - Annual Tests) of R18-2-1006, under “Maximum Allowable for Reconstructed Vehicles”.

Responsibility: All emissions inspectors performing testing on reconstructed vehicles.

Policy Statement:

The Maximum Allowable Emissions Standards used for testing specific types of Reconstructed Vehicles not addressed in Table 2. (Emissions Standards - Annual Tests) of A.C.C 18-2-1006, shall be as follows:

All **Reconstructed Motorcycles** shall be tested using the **Motorcycle Emissions Standards** stated in Table 2. (Emissions Standards - Annual Tests) of A.C.C 18-2-1006, for the applicable Vehicle Engine Type.

All **Reconstructed Vehicles** having a vehicle engine type of 2-stroke, shall meet the applicable **2-Stroke Emissions Standard** for the Vehicle Type and Gross Vehicle Weigh Rating stated in Table 2. (Emissions Standards - Annual Tests) of A.C.C 18-2-1006.
